

Glazing instructions for

“Performance 3 Stripe”

A762, a763, a764, a765, a766, a767

Chassis only	a775
Clip-on	a507

Glazing procedure:

- Use exactly the same glazing instructions as Minimal Art and the Titan next generation, Titan Metallic and Performance Light Steel
- Use the same 1.4mm Drill bit
- Use the same Drilling gauge guide
- Mark, measure and drill the same as all Metal Titan rimless systems with SPX sleeves.

Difference:

- Use the **BLS 58**
- This sleeve has a **smaller inside diameter**; the outside diameter is the same as the BLS 40. For the long-term durability of the entire eyewear please use the correct sleeve.
